Support and Help Site – EMDESK

How can I export my data to another system to work offline? What format will the export be?

EMDESK offers a large number of options to export of your online project data into offline DOCX and XLS documents. You can perform an export at any time. EMDESK automatically generates Proposals, Reports, the Technical Annex, and Financial Statements that need to be provided during the Project Implementation Phase. To export a document click on Version / Export and then select the version and document you'd like to export from this page.
