Managing Revision of Content Elements

To manage the different versions of a content element, click on the **Revision** tab, which is located at the bottom of the content editor while in edit mode.

You'll find the latest version marked as **Active** at the top of the list.

You can review the content of recent versions by clicking 🔍 for the respective version. To delete a version, click on 🚫.

To revert an older version click on 📥 for the respective version.

To compare two version to each other, mark the two versions you'd like to compare using the radio buttons and then click **Compare Versions**. A read-only editor will appear above this highlighting the differences between the two versions.
